

# CAPORO

# HANDBAGS

*handmade*

## *Handbags Collection*

Manufactured with the Arrow Cane vegetable fiber, an ideal material for hot summer days. The designs are inspired in the daily use the indigenous cultures and migrants in the region gave to implements such as the harvest basket, the backpack, messenger bags and duffle bags. These designs are accessorized with insides linings in linen fabric, wooden or leather handles, zippers or Velcro.

# FEATURES

Each of our bags comes with care instructions and a certificate of authenticity signed by the craftsman, certified by ICONTEC as an original and numbered Colombian Artisanal product. They also come with a brief description of the Zenu culture.
